

A REPORT ON HEALTH AWARENESS CAMP ORGANISED BY THE DEPARTMENT OF EDUCATION, THE IIS UNIVERSITY, JAIPUR

A health awareness camp was organised by the students of even semester and faculty of education on 12th March, 2018 in the premises of THE IIS UNIVERSITY. The students of the department worked hard to prepare for the camp and were encouraged by the faculty. It was aimed to prepare the upcoming teachers for the further use of these campaigning skills in their professional life and also understanding their responsibilities in spreading awareness in the society. Every teacher is responsible in shaping the upcoming developers of the society. The students of B.A. B.Ed. and B.Sc. B.Ed. i.e., future teacher need to understand the importance of health and also spread this information amongst the society. The pandemic times have further enhanced the importance of the same. The camp was really helpful in inculcating these qualities in the future teacher of our society.
