Udayan Care provides residential care to disadvantaged children, among its many programmes. Gunjan was placed at our Head Office, and was assigned the task of analysing the data on education dimension for the care plan of the Udayan Ghar and After Care children under the Right to Education Act. She prepared an excel sheet on the basis of the scores obtained by the children to analyse the two categories of low scores. Gunjan developed a questionnaire to document the reasons for the low scores, to provide the needed facilities to improve the education dimension for development of the children.

Gunjan did a commendable work in documenting all the details of the information. She is a conscientious young woman, who worked with diligence and has carried out her duty with patience, dedication and hard work.
