SUGGESTIONS FROM
AQAR CRITERION COORDINATORS

CRITERION I: Curricular Aspects

To further enhance the curricular aspects of our university, we propose the following suggestions:

1. **Mapping Syllabi with Online Courses:**
Encourage departments to map their existing syllabi with courses available on different online platforms such as MOOCs, SWAYAM, and NPTEL. This mapping process will help identify opportunities to replace or supplement existing units or entire courses with online offerings. By incorporating high-quality online courses into our curriculum, we can provide students with access to a wider range of resources and perspectives.

2. **Mandating Short-term Course Certificates:**
Make it mandatory for students to earn a certificate by completing at least one short-term course from online platforms. Faculty members can incorporate this requirement into their courses by assigning activities or assignments that involve completing an online course and submitting the certificate as proof. This approach not only promotes lifelong learning but also exposes students to emerging topics and skills beyond the traditional classroom.

3. **Implementing Mandatory Internships:**
Introduce mandatory internships for both undergraduate and postgraduate programs. Internships provide students with hands-on industry exposure, which is crucial in the current job market. If any program currently lacks this component, it is necessary to redesign or restructure the syllabi. Alternatively, departments can consider introducing research-based projects or lab/field-based activities, assigning a faculty member as a guide or mentor to ensure proper implementation and evaluation. To increase research output, we propose assigning different titles for each research project and introducing research projects in the second year and internships in the third year.

CRITERION II : Teaching-Learning and Evaluation

2.2.1

Assessment of Learning Levels of students & special programs organized for slow & advanced learners

A number of programs such as FDPs, Academic Lectures, Webinars, Workshops, Online courses are arranged. Tutoring slow learners also help the slow as well as advanced learners

Slow learners are helped through remedial teaching, use of models, peer tutoring by high ability classmates, encouraging them to spend more time on reading in libraries, learning opportunities though online sources like YouTube.

2.4.4

Total number of Teachers who received awards, recognition & fellowships from States. National & International Levels from Government /Government recognized bodies during the Year

Faculty members are motivated to take part in National & International Level competitions organized by Government /Government recognized bodies

CRITERION III : Research, Innovations and Extension

1. We may formulate the strategies to increase number of paper publications in UGC-care/ Indexed journals.

2. Faculty members may be motivated to create good E-content for various MOOC platforms.

3. Consultancy Policy can be updated for encouraging revenue generation from consultancy and corporate trainings.

4. Initiatives may be taken to improve the number of MOUs.

5. Efforts can be made to attract faculty members for getting seed money for research from the University.

6. Faculty members may be encouraged to apply for more financial support from various government and non government funding agencies.

CRITERION IV: Infrastructure and Learning Resources

As the focus of metric is on acquiring new infrastructure, acquisition of new infrastructure will help gain more points but due to some ifrastructure constraints we can improve upon learning resources. we can increase Recurring expenditure on laboratory, maintenance of infrastructure and acquisition of books and journals are not counted under this metric. Amount spent on purchase of books, e-resources and Journals can be increased. As per SOP the computers for office and faculty use will not be considered, thus it is suggested to purchase more computers for resource enhancement and their usage.

CRITERION V: Student Support and Progression

- More strategies and policies to strengthen the no. of students benefited by scholarships & freeships provided by the institution, Government and non-government bodies, industries, individuals, philanthropists may be there.

- More of career counselling activities can be conducted.

- MOU's should be signed with coaching institutes providing guidance for competitive exams.

- Active student coordinators can encourage the students to appear for placement drives.

- Alumnae who are placed or are entrepreneurs can be tapped by the departments so that they can bring placements to the campus.

- Students may be counselled, briefed and motivated regarding various competitive exams they could appear for.

CRITERION VI : Governance, Leadership and Management

- Efforts to receive Funds / Grants from non-government bodies, individuals, philanthropists during the year for development and maintenance of infrastructure.

- Financial support may be provided to teaching staff to attend conferences /workshops and towards membership fee of professional bodies during the year.

- More professional development / administrative training Programmes for teaching and non-teaching staff may be organized during the year.

CRITERION VII : Institutional Values and Best Practices

Various measures for water and energy conservation resources may be adopted. Robust mechanism for solid and liquid waste management may be functional. Audits may be conducted once or twice and two to three best practices may be identified during the assessment period.
